BSD City ,Tangerang Selatan, Indonesia

Aspiring Software Developer with a passion for full-stack web development, particularly adept at crafting user-friendly interfaces using React for Single Page Applications. I've had the opportunity to contribute to various projects, working collaboratively to enhance code efficiency and user experiences. Excited about the prospect of bringing my technical skills and a genuine eagerness to learn to your development team.

Work Experiences

Telkom University Faculty of Industry Engineering - **Bandung, Indonesia**   Jun 2020 - Aug 2020

Front End Developer Intern

- Developed Front-End for the project Thesis Selection App
